# Fed Submit™ (TX)

Overview

Mentalix's Fed Submit (TX) product is used by law enforcement agencies that submit criminal fingerprint transactions and arrest records to the Texas Department of Public Safety (DPS). Applicant cards can also be printed for mailing by organizations that must submit background checks to the Texas DPS – e.g., for a person applying for a job at a police department or school district. A specialized version of Mentalix's Fed Submit (Criminal) software, Fed Submit (TX) is tailored specifically to meet the requirements for Texas DPS submissions. Widely used by Texas law enforcement agencies, Fed Submit (TX) is one of the first solutions in the state to offer transmission of encrypted fingerprint records via the Internet.

Benefits

- Approved by Texas DPS and used successfully by Texas law enforcement.

- Improves security with local live scan fingerprint-based searches, which are more reliable than name searches. During booking, you can search for matches to existing records; upon release, you can confirm that the correct inmate is being released.

- Fed Submit (TX) is consistently ranked by Texas DPS as having the lowest live scan error rate in the state.

Features

- FBI-certified live scan & card scan support

- Fingerprint & palm print capture available

- 500 ppi FBI certification

- FBI-certified WSQ Version 3.1 compression

- EBTS formatting

- Fingerprint quality check

- Fingerprint sequence check (with live scan)

Fed Submit (TX) allows the user to scan and submit fingerprints to Texas DPS electronically. The software features Texas-specific data fields.

- FBI-certified card printing on blank card stock with CardPrint add-on & supported printer

- Stores 70,000+ transactions

- Full text search capability

- Transaction reports

- Custom data entry & field checks for Texas DPS per the TXDPS Data Dictionary

- Supports Internet submissions to Texas DPS, **including Class C misdemeanors**

- **Fingerprint-based matching capability within local database** for searches or inmate release verification

- Photo/mug shot capture (with add-on) and import

- Integration with many local AFIS matching systems & JMS/booking systems

- CR-43 & CR-44 printing

- Adult & Juvenile submissions

- Texas DPS Two-Finger Lookups
