Fed Submit™ (SORLE)

Overview

The **Fed Submit (SORLE) Live Scan Pack** is a standalone live scan system specifically designed for Texas Law Enforcement Agencies to create and process Sex Offender Registrations and Law Enforcement Applicant transactions. The Fed Submit (SORLE) Live Scan Pack includes a live scanner, PC, camera, and software that allows law enforcement agencies to create the required biometric transactions, take high quality photos, electronically transmit the information to Texas DPS, and process the responses that come back through the live scan system.

Electronic submission for Sex Offenders and Law Enforcement Applicants from the law enforcement agency reduces the receipt of submission results from months (when using an outside agency) to just minutes.

The Fed Submit SORLE Live Scan Pack comes with a live scanner, live scan and photo capture software, and an 18-megapixel camera enabling efficient capture and processing of SOR and Law Enforcement Applicant transactions. (Actual product may differ from image shown depending on your hardware configuration requirements.)

Features

- Sex Offender Registration & Law Enforcement Applicant Submissions
- Electronic submission of transactions to Texas DPS
- FBI-certified live scan support
- FBI-certified WSQ Version 3.1 compression
- EBTS formatting
- Fingerprint Sequence Check
- FBI-certified card printing on blank card stock with Fed Submit CardPrint Add-On & supported printer purchase
- Full-text search capability
- Stores 70,000+ transactions
- Transaction reports
- High-quality photo/mug shot capture
- Fingerprint quality check

Benefits

- Electronic submission for applicant submissions reduces background investigation time for Law Enforcement Applicants
- Expedite registration of sex offenders
- Ease of locating correct transactions in a system increases efficiency and reduces operator error
- Real-time fingerprint quality checks
- Integrating photo capture with fingerprints allows identifying information to be stored in a single transaction record as required by TX DPS
- Relatively low investment that leaves the criminal live scan system available for criminal transactions as needed

---

Texas Customers

DPS now requires that agencies submit a mug shot photo with all SOR and Law Enforcement Applicant submissions. Although it is not yet required, photo capture is recommended even for your criminal transactions. Some states strictly require photo capture with all criminal transactions, and facial matching capability is now in use in some government AFIS systems.
