U.S. Department of Justice

Federal Bureau of Investigation

Clarksburg, WV 26306

June 26, 2002

Mr. Dale Remmers
Mentalix, Inc.
Suite 110
1700 Alma Drive
Plano, TX 75075

Dear Mr. Remmers:

The Federal Bureau of Investigation's (FBI) Criminal Justice Information Services (CJIS) Division has completed a review of the testing information submitted by Mentalix, Inc. for certification of the Mentalix-Configured Hewlett-Packard (HP) *ScanJet 7400C* Fingerprint Card Scan System with the Mentalix *Fingerprint Scan API Toolkit*, Version 3.3, for Windows-32 computer operating systems (i.e., Windows 95/98/2000/XP/NT), 500 pixels per inch (ppi), which does not include an automatic document feeder, for compliance with the Appendix F of the FBI's Integrated Automated Fingerprint Identification System (IAFIS) Image Quality Specifications (IQS) standards. The review of the test data was conducted by representatives of the FBI and the MITRE Corporation located in Bedford, Massachusetts.

Based on the results of this review, the FBI certifies that the Mentalix-Configured *HP ScanJet 7400C* Fingerprint Card Scan System, 500ppi, for Windows-32 computer operating systems, is in compliance with the IAFIS IQS Appendix F Scanner Specifications created by the FBI's CJIS Division. The certification process does not endorse one product over any other product. Certification only demonstrates that this product meets the FBI standards.

Continued acceptance of the images created by an installed system, for retention in the FBI Master Fingerprint files, is contingent on the ability of the product to meet the

IQS over time. As equipment can degrade over time, the FBI recommends that your company assist customers for your products in the establishment of quality assurance programs and appropriate maintenance schedules.

Please direct any questions regarding this certification to Mr. Thomas E. Hopper, Programs Development Section. Mr. Hopper may be contacted via telephone at (202) 324-3506.

Sincerely,

Thomas E. Bush, III
Section Chief
